Introduction

Find your device and/or browser below and follow the instructions to clear your browser data.

IMPORTANT:

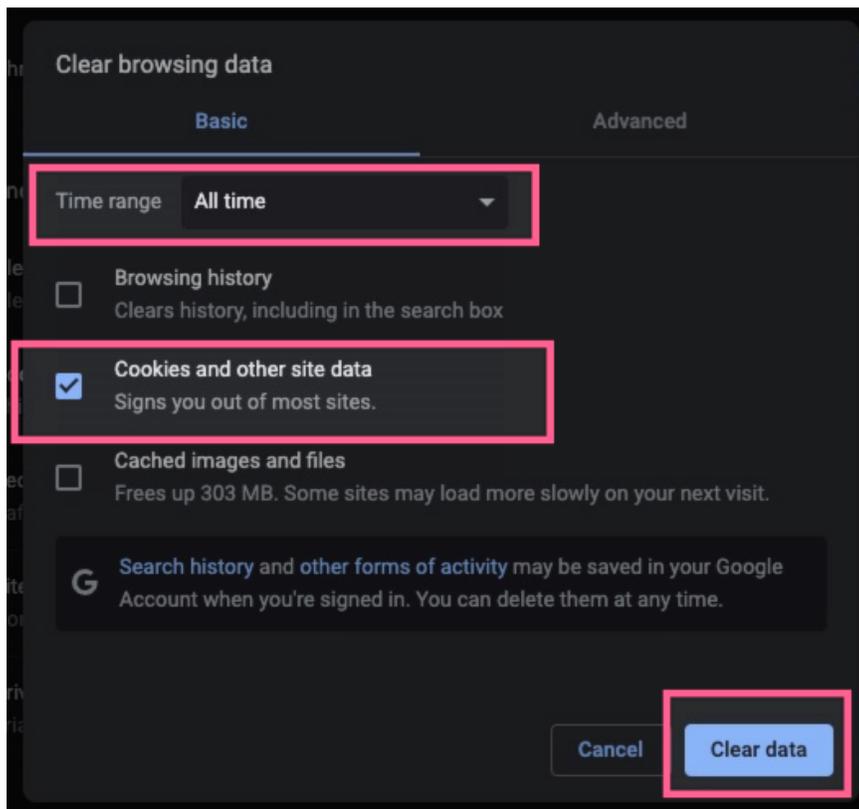

Make sure to clear your browser data for **All Time** if given the option.

Some browsers provide an option to clear data for All Time and others do not. If a browser does not give the option, then it likely clears the data for All Time by default.

Chrome Browser for Desktop and Android

On your desktop or Android Device, open **Chrome**.

1. At the top right, click **More** .
2. Click **More tools** > **Clear browsing data**.
3. Choose **All time**.

4. Select "**Cookies and other site data**" to remove.
5. Click **Clear data**.

For more information on how to clear browsing data, please visit [Chrome's official website documentation here](#).

Chrome Browser for iPad and iPhone

On your iPhone or iPad, open the **Chrome** app .

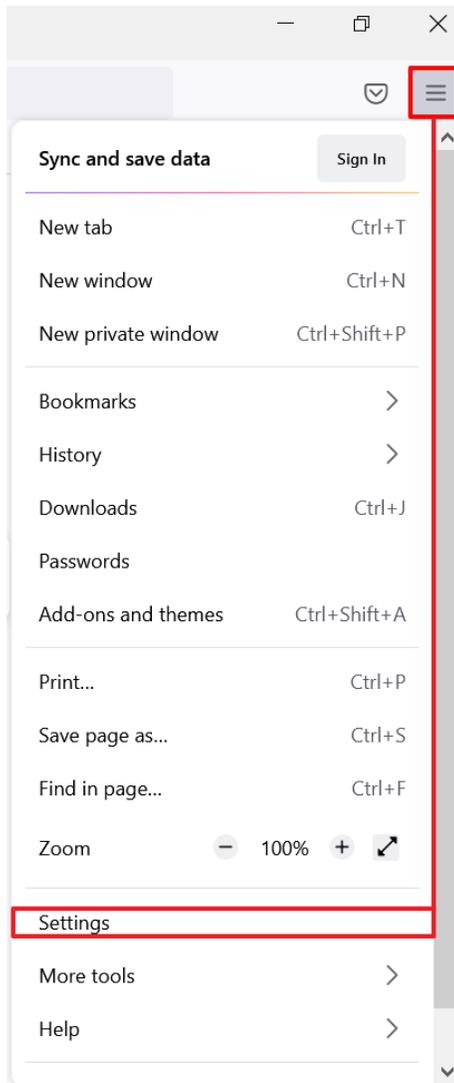

1. Tap **More**  **>** **History** .
2. Tap **Last Hour** Last Hour > next to "Time Range".
3. At the bottom, tap **All Time**.
4. Tap **Clear Browsing Data** to go back.
5. At the bottom, tap **Clear browsing data**.
6. Select "**Cookies and other site data**" to remove.
7. Tap **Clear browsing data** **>** **Clear browsing data**.
8. At the top right, tap **Done**.

For more information on how to clear browsing data, please visit [Chrome's official website documentation here](#).

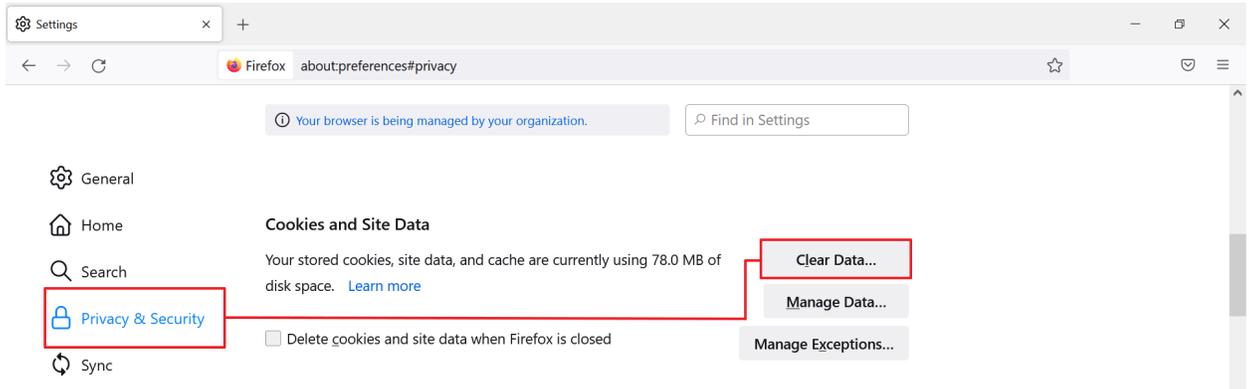

Mozilla Firefox Browser

Open **Mozilla Firefox**.

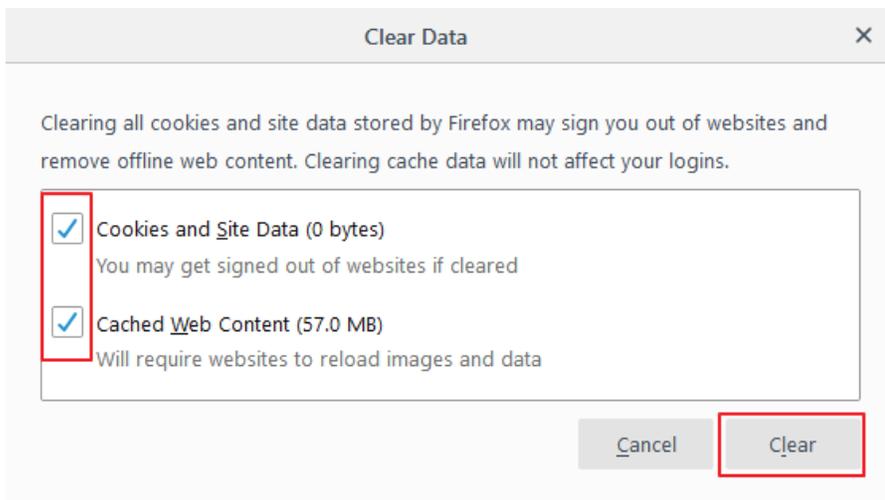

1. Click the **menu button** ☰, then select **Settings**.

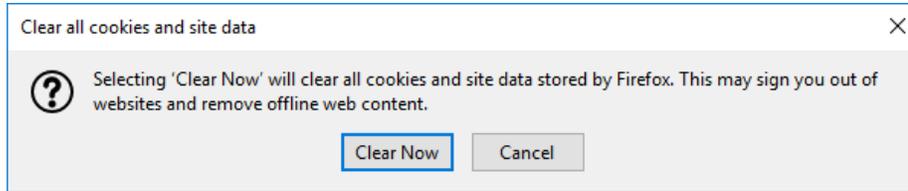

2. Select **Privacy & Security**, scroll to **Cookies and Site Data**, and then click **Clear Data**.

3. Tick both **Cookies and Site Data** and **Cached Web Content**, and then click **Clear**.

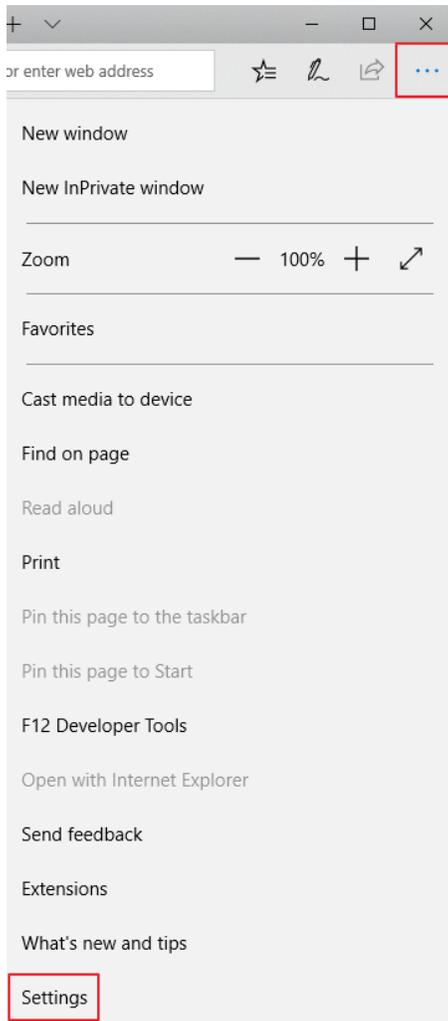

4. A confirmation box will appear. Click **Clear Now** to proceed.

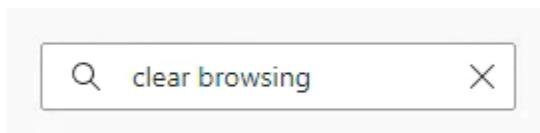

For more information on how to clear browsing data, please visit [Firefox iOS Browser Official documentation here](#).

Microsoft Edge for Desktop

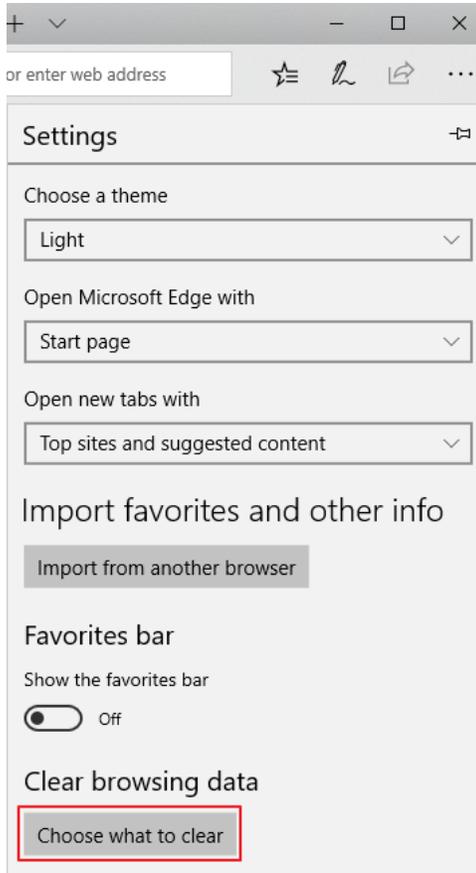

1. Open **Microsoft Edge**.
2. Click the **menu button ... > Settings**.

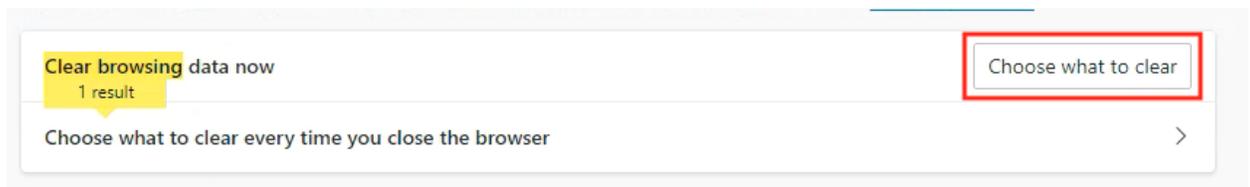

3. Find or search for **"Clear browsing data"**

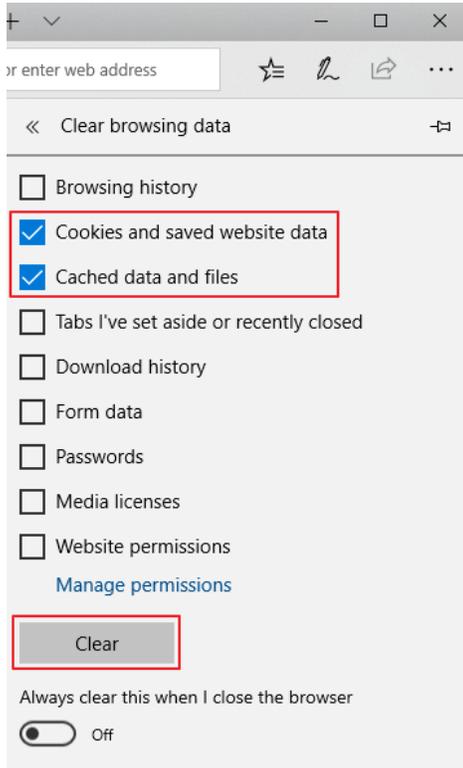

4. Under **Clear browsing data**, click **Choose what to clear**.

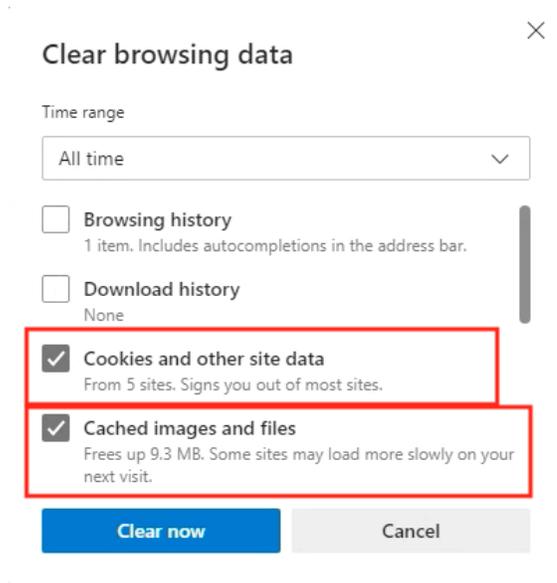

5. You may alternatively be presented with the following dialogue.

6. Tick **Cookies and saved website data** and **Cached data and files**, and then click **Clear**.

7. You may alternatively be presented with the following dialogue, if so, tick **Cookies and other site data** and **Cached images and files**.

Clear browsing data

For more information on how to clear browsing data, please visit [Microsoft Edge Browser official documentation here](#).

Internet Explorer for Desktop

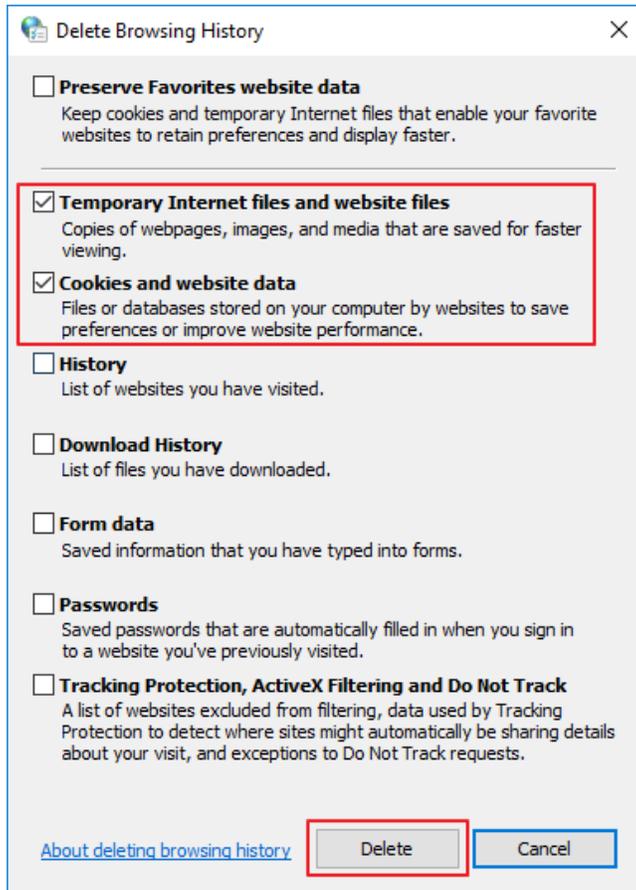

1. Open Internet Explorer.
2. Click Settings , then select **Internet Options**.

3. Under **General**, go to the **Browsing History** section, then click the **Delete...** button.

4. Tick **Temporary Internet files and Website files** and **Cookies and Website Data**, then click Delete.

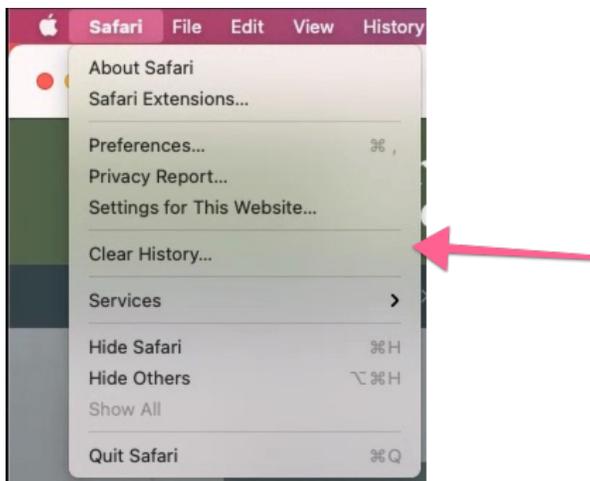

For **Internet Explorer 8 and below**, please see the [official Microsoft documentation here](#). However, please continue the instructions shown at #4 in the above screenshot.

Safari Browser for Desktop

1. Open Safari.
2. Click Safari.

3. Click the **Clear History Button**.

4. Make sure **All History** is selected.

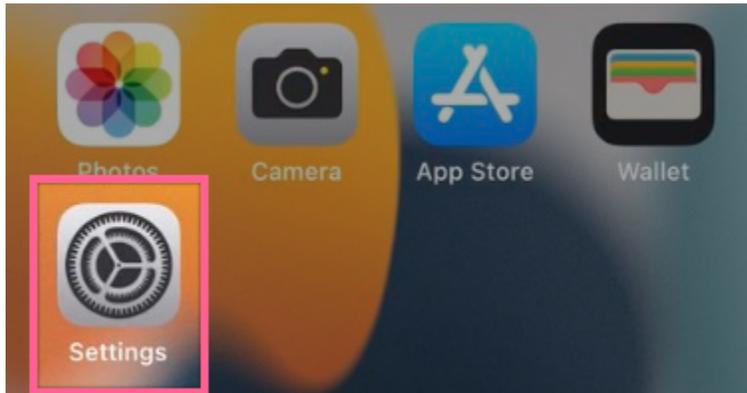

5. Click **Clear History**.

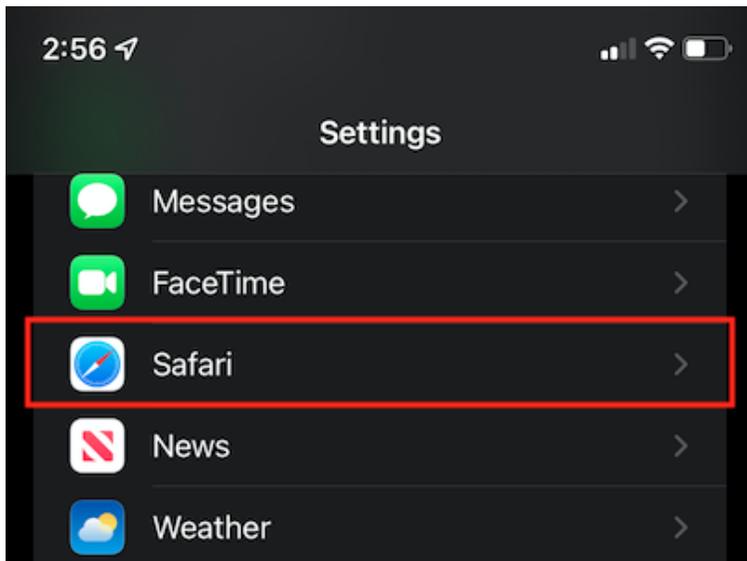

For more information [see the official Apple guide here](#).

Safari Browser for Mobile

1. From the home screen, open **settings**.

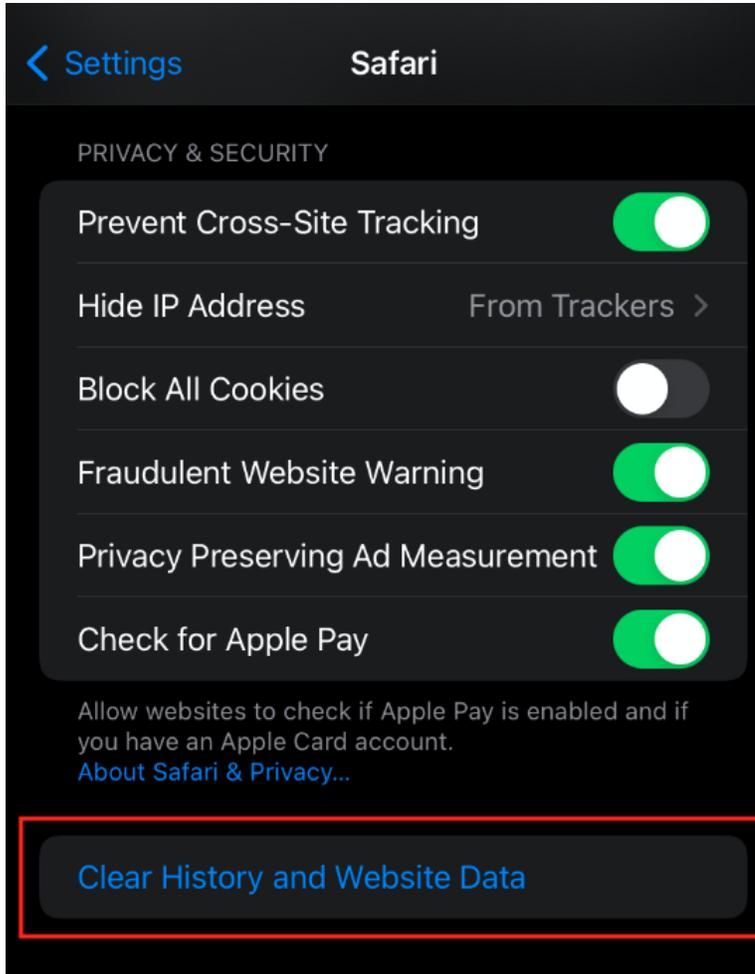

2. From the setting menu, tap **Safari**.

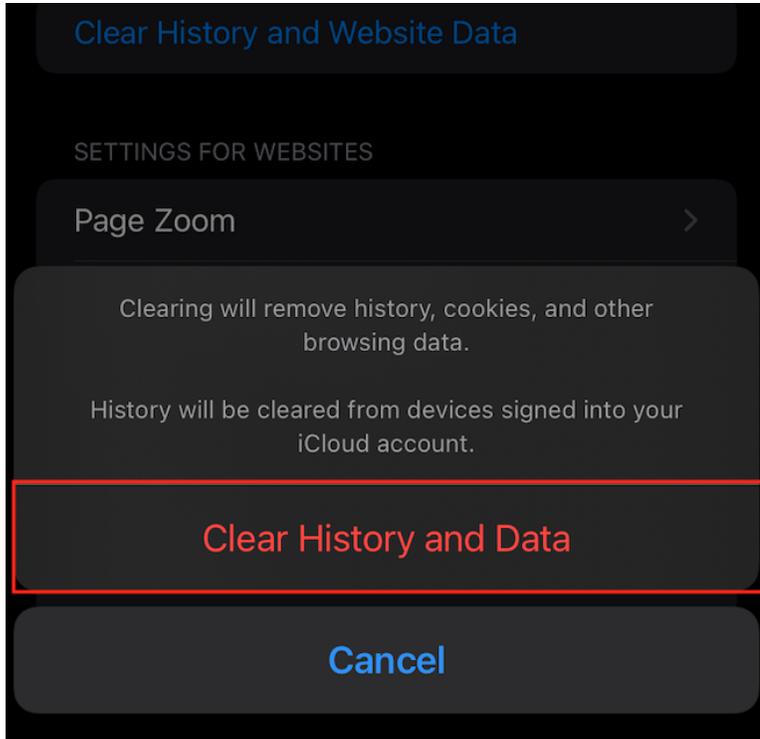

3. Scroll to the **Privacy and Security** section.

4. Tap **Clear History and Data**.

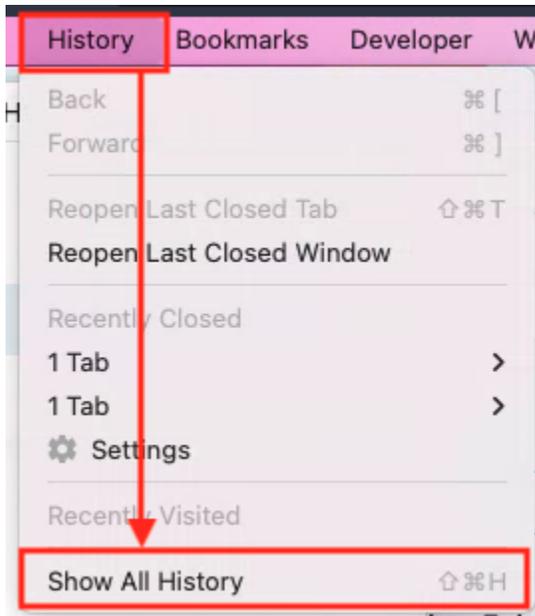

5. When the confirmation message appears, tap **Clear History and Data**.

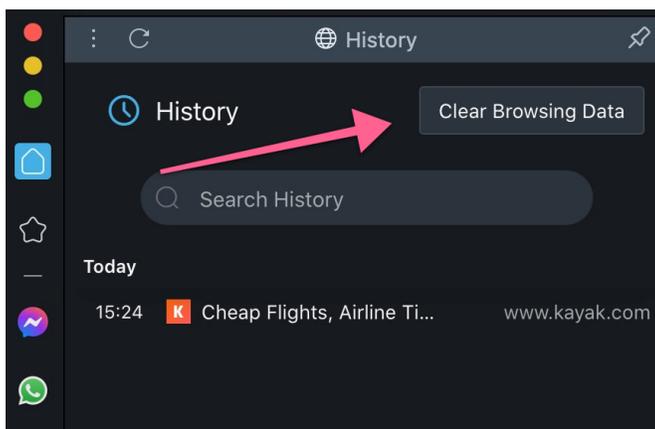

For more information on how to clear browsing data, please visit [Safari Browser official documentation here](#).

Opera Browser

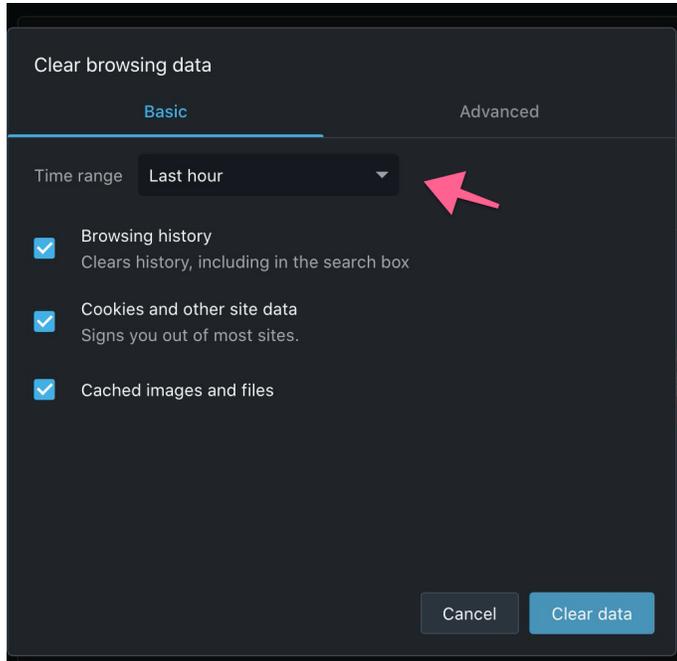

1. Open the **Opera** Browser on your device.
2. Press **Ctrl+H (command+shift+h)** to open your **history** page. Or, use the upper toolbar and click **History** then click **Show All History**.

3. Click **Clear browsing data** in the top-right corner.

4. Change the time range to “**All time**”.

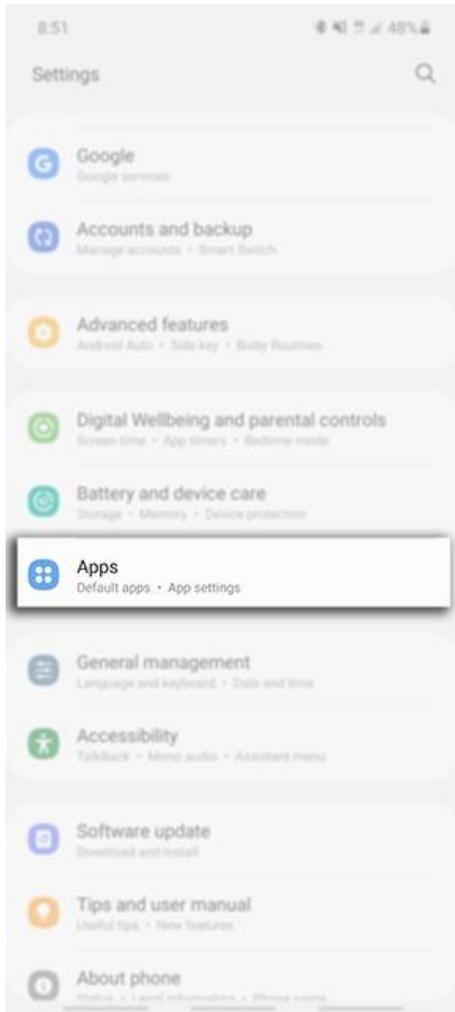

5. Click **Clear data**.

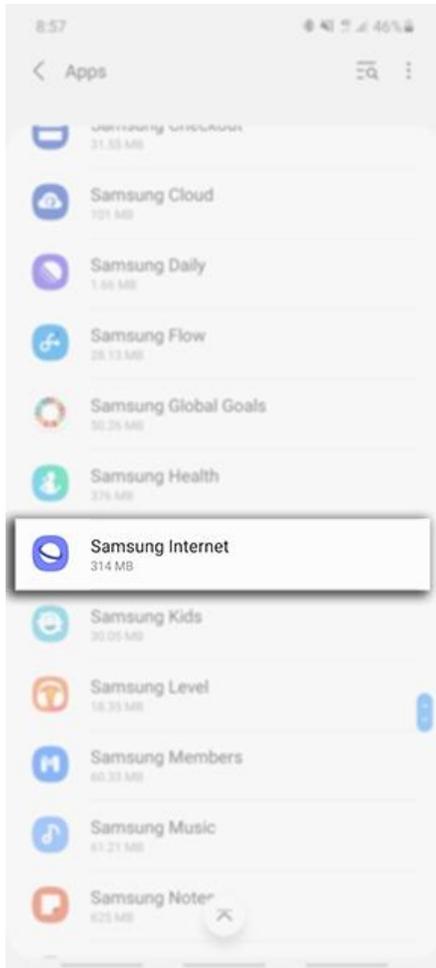

For more information on how to clear browsing data, please visit [Opera Browser's official documentation here](#).

Samsung Internet Browser

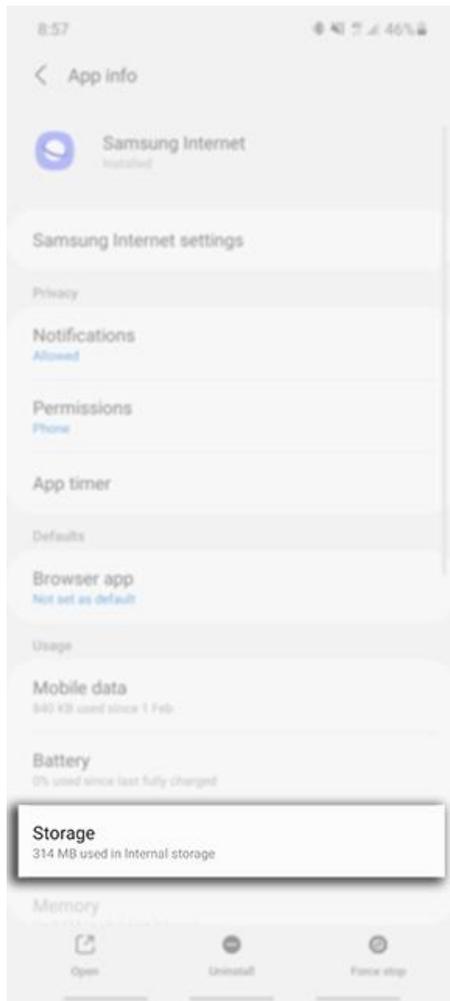

1. Go to **Settings** app on your phone and tap on **Apps**.

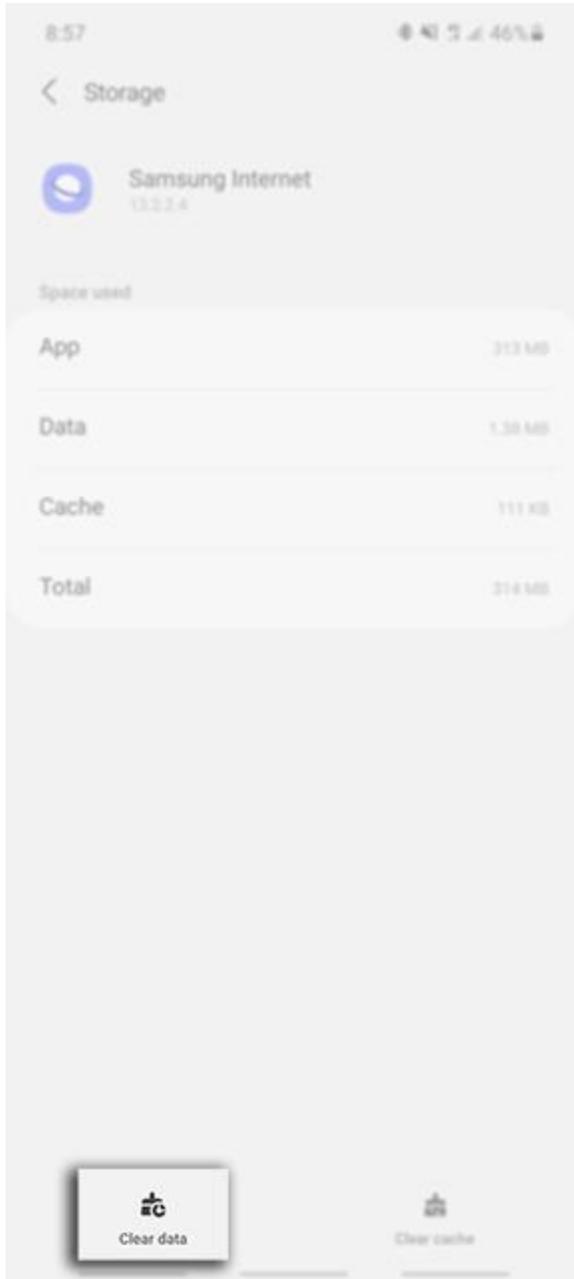

2. Tap on **Samsung Internet**.

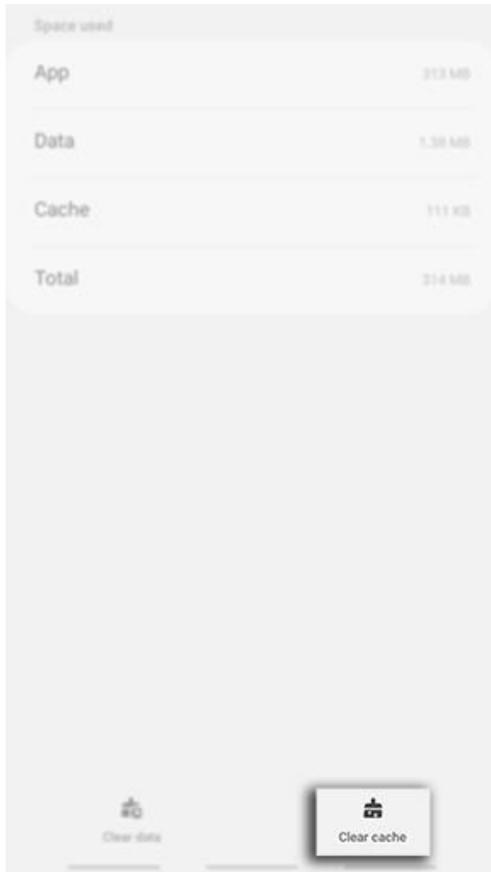

3. Select **Storage**.

4. Tap on **Clear Data** to clear all temporary files.

5. Confirm by tapping on **Delete** to finalize the process.
6. Tap on **Clear Cache** to delete the browsing cache.

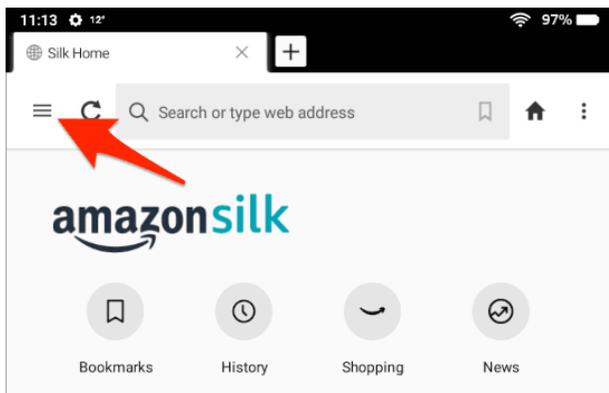

For more information on how to clear browsing data, please visit [Samsung Internet Browser official documentation here](#).

Amazon Silk Browser

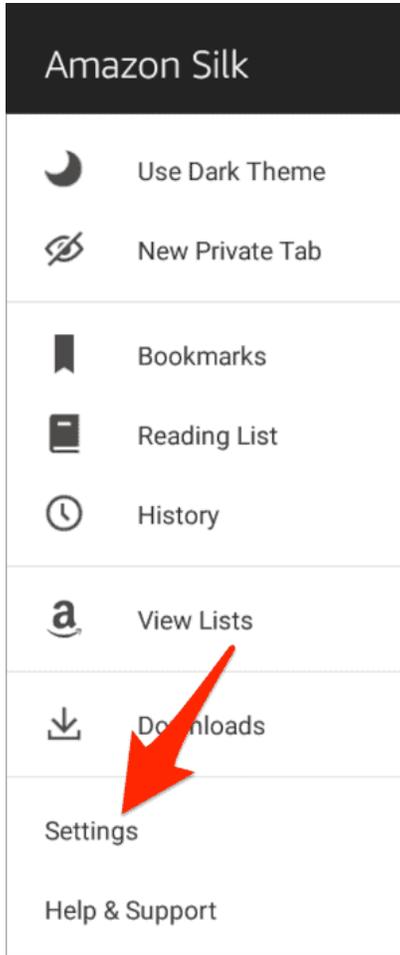

1. Open the browser by tapping the **Silk Browser** icon.

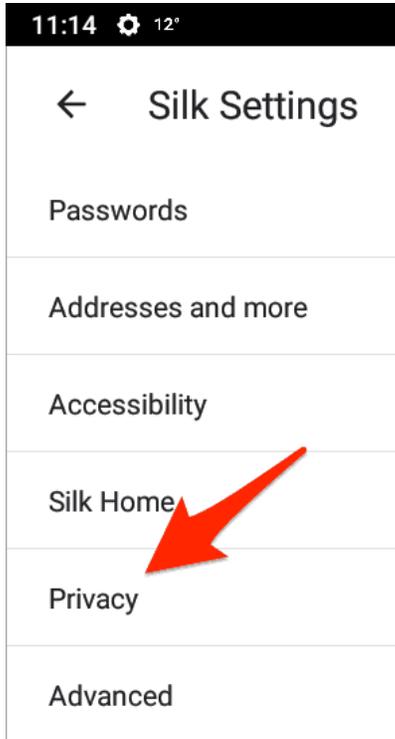

2. Tap the "3 dashes" button to open the Amazon Silk menu.

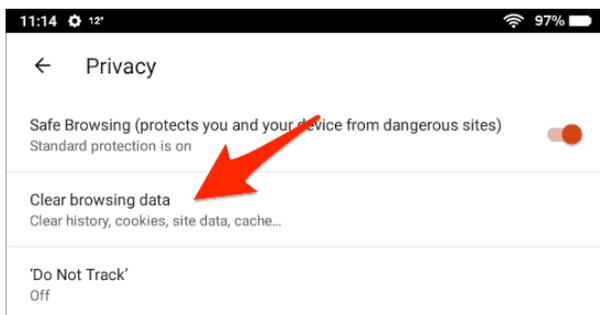

3. Select **Settings** from the Amazon Silk menu.

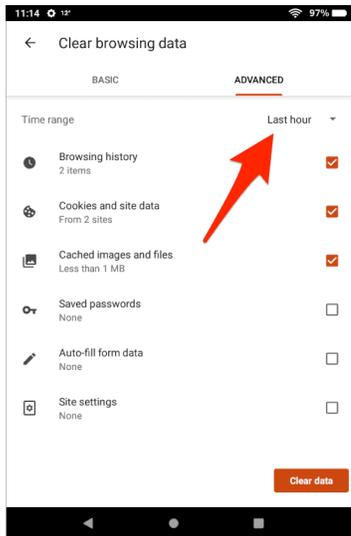

4. Select **Privacy** from the Silk Settings menu.

5. Select **Clear browsing data**.

- The Clear browsing data section will open up. If it isn't displayed by default, select **Advanced** so that you can see all of the options. First you'll need to decide how far back you'd like to clear the history and/or cache etc. Tap the Last hour item (see screenshot below).

7. Select **All time**.

ADVANCED

Last hour

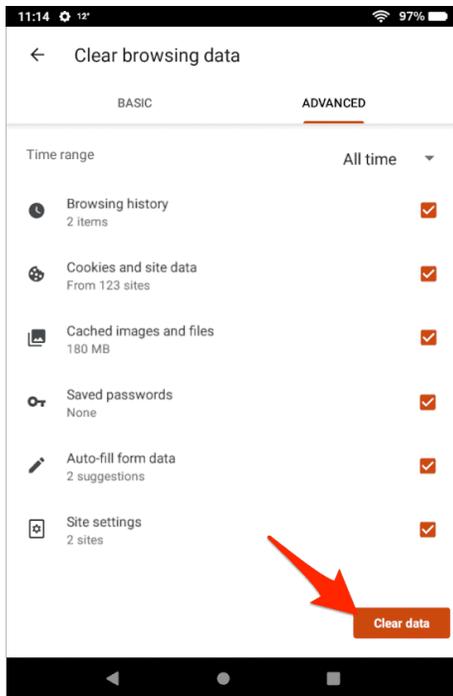

Last 24 Hours

Last 7 days

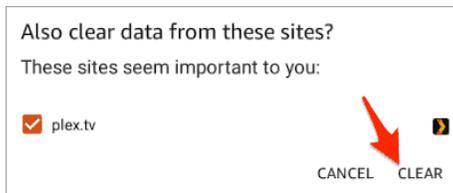

Last 4 weeks

All time

8. Select **Cookies and Site Data**.

9. You may also get a confirmation window – click the **CLEAR** button if you do.

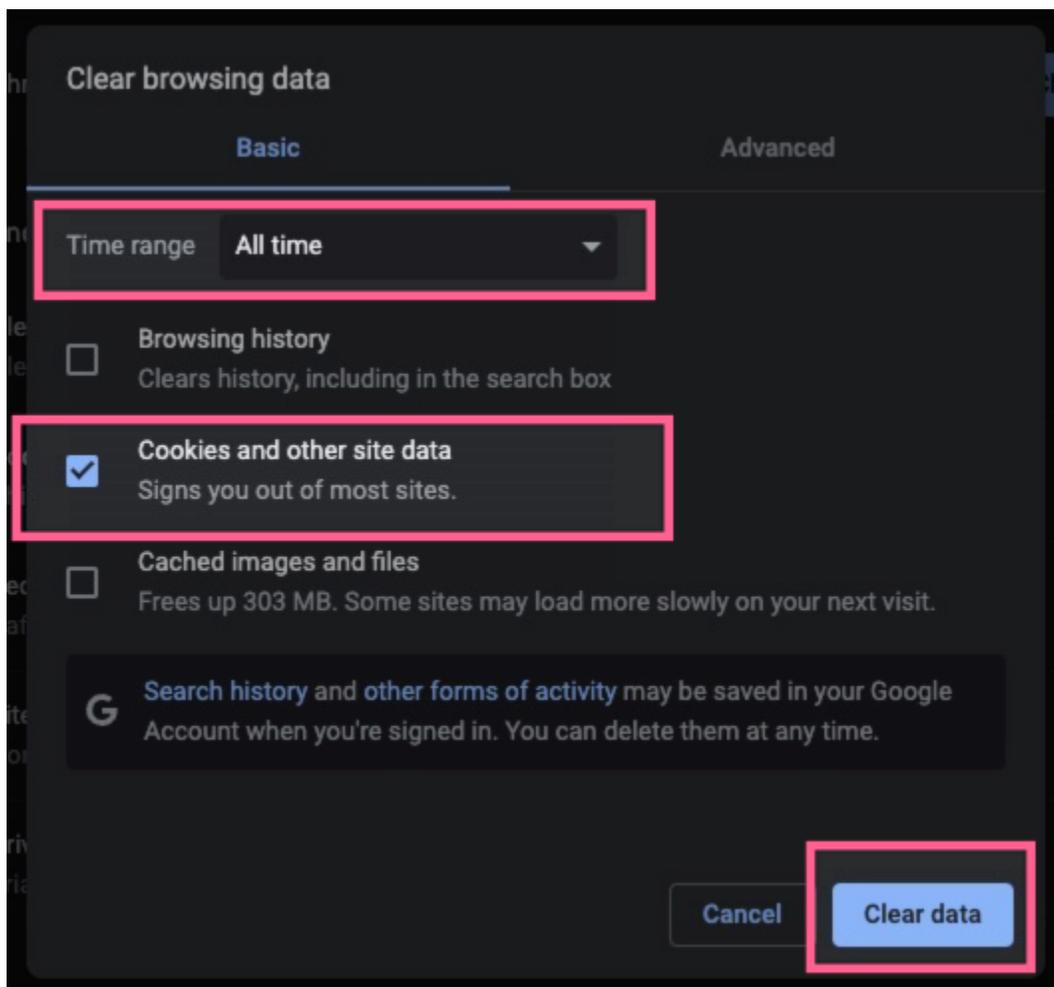

For more information on how to clear browsing data, please visit [Amazon Silk Browser official documentation here](#).

Brave & Other Chromium-based Browsers for Desktop

On your Computer, open **Browser**.

1. At the top right, click **More** .
2. Click **More tools** > **Clear browsing data**.
3. Choose **All time**.

4. Select "**Cookies and other site data**" to remove.
5. Click **Clear data**.

For more information, please check the vendors' official website.
